- Computer Hardware
- Customer Service
- HTML5/CSS
- Java/JavaScript
- C/C++
- Python
- SQL/MySQL/Microsoft SQL Server
- PHP
- C#
- Node.js
- Visual Studio
- Visual Studio Code
- Git/GitHub
- Godot 4/Unity/Unreal Engine 5

Projects

Nexus Ninja **September 2024 - December 2024**

Nexus Ninja is a 2.5D adventure/fighting game made in Godot. This game is about a samurai trying to avenge their clan that had their village burned down by a rival clan's samurai from the future. The main components I worked on were how the enemies worked, the level transition, and sound effects.

@Obsession **September 2023 - December 2023**

@Obsession is a point-and-click horror-like game made in Unity. This game is about a content creator who recently became popular and has to continue growing their platform while avoiding a stalker. The main components I worked on were the stalker system, the notification system, and the audio.
