- Python
- SQL/MySQL/Microsoft SQL Server
- PHP
- C#
- Node.js
- Visual Studio
- Visual Studio Code
- Git/GitHub
- Godot 4/Unity/Unreal Engine 5

Projects

Gator Hucker **September 2025 - May 2026**

Gator Hucker is a third-person multiplayer arena brawler made in Unreal Engine 5.7. You play as an alien gator that is thrown into an arena, fighting other gators for glory. The main components I was in charge of were the networking portions of the game and how players could connect across networks using Epic Online Services.

Nexus Ninja **September 2024 - December 2024**

Nexus Ninja is a 2.5D adventure/fighting game made in Godot. This game is about a samurai trying to avenge their clan that had their village burned down by a rival clan's samurai from the future. The main components I worked on were the different enemies and their different actions, the level transition, and sound effects.
